# Discover the power of water

A new generation of WCs in which technology and water take center stage, bringing hygiene and comfort to a new dimension.

## Functionality, design and accessible technology

### More intuitive

You won't believe how easy it is. With Gala Innova you will enjoy a perfect experience from day one.

### More hygiene

There is nothing so natural, so simple and yet so revolutionary as water to achieve outstanding intimate hygiene.

### More comfort

Easily customizable settings to adapt to the preferences of every user.

OPEN  
THE DOOR  
TO TECHNOLOGY

### Control panel

A simple side panel activates the main washing and drying functions of the WC.

### Presence sensor

An infrared sensor prevents the WC from activating if it doesn't detect any presence on the seat.

### Rimless +

Gala Innova is a rimless WC. Water flows from the rear, homogeneously reaching the entire bowl.

### Night light

A LED light located at the rear end of the seat guides users to the WC, without having to turn on the bathroom lights.

4 functions:

**Standard:** it activates when the cover is lifted and turns off one minute after detecting any presence.

**Night light:** The light remains on for 8 hours at night.

**Standard with night light:** The light remains on for 8 hours and it works in Standard mode for the remaining 16 hours.

**Off:** The LED light is always off when this function is chosen.

### Design and comfort

Inspired by minimalism, Gala Innova adapts to all kinds of interior designs, ensuring maximum comfort.

### Soft-close seat

The seat features soft-close hinges and therefore it closes silently, avoiding involuntary blows.

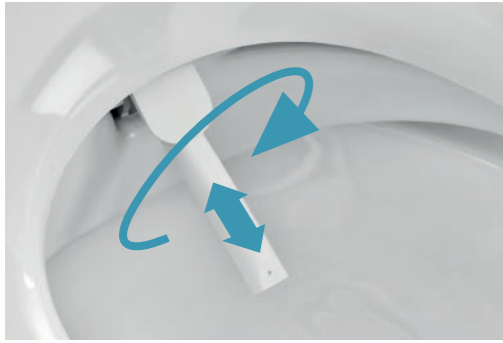

### Removable seat

In order to make cleaning easier, the seat and cover can be fully removed with a simple gesture.

### Hidden connections

To obtain a cleaner design, the water and power connections are hidden behind the WC. Its installation only requires a common water inlet.

#### Detachable nozzle

The nozzle can be easily detached, in order to clean it thoroughly.

#### Self-cleaning nozzle

The retractable nozzle cleans itself before and after each use to ensure maximum hygiene.

#### Adjustable position

The nozzle has five different positions so as to provide greater precision and comfort.

# DESIGN AND ERGONOMICS

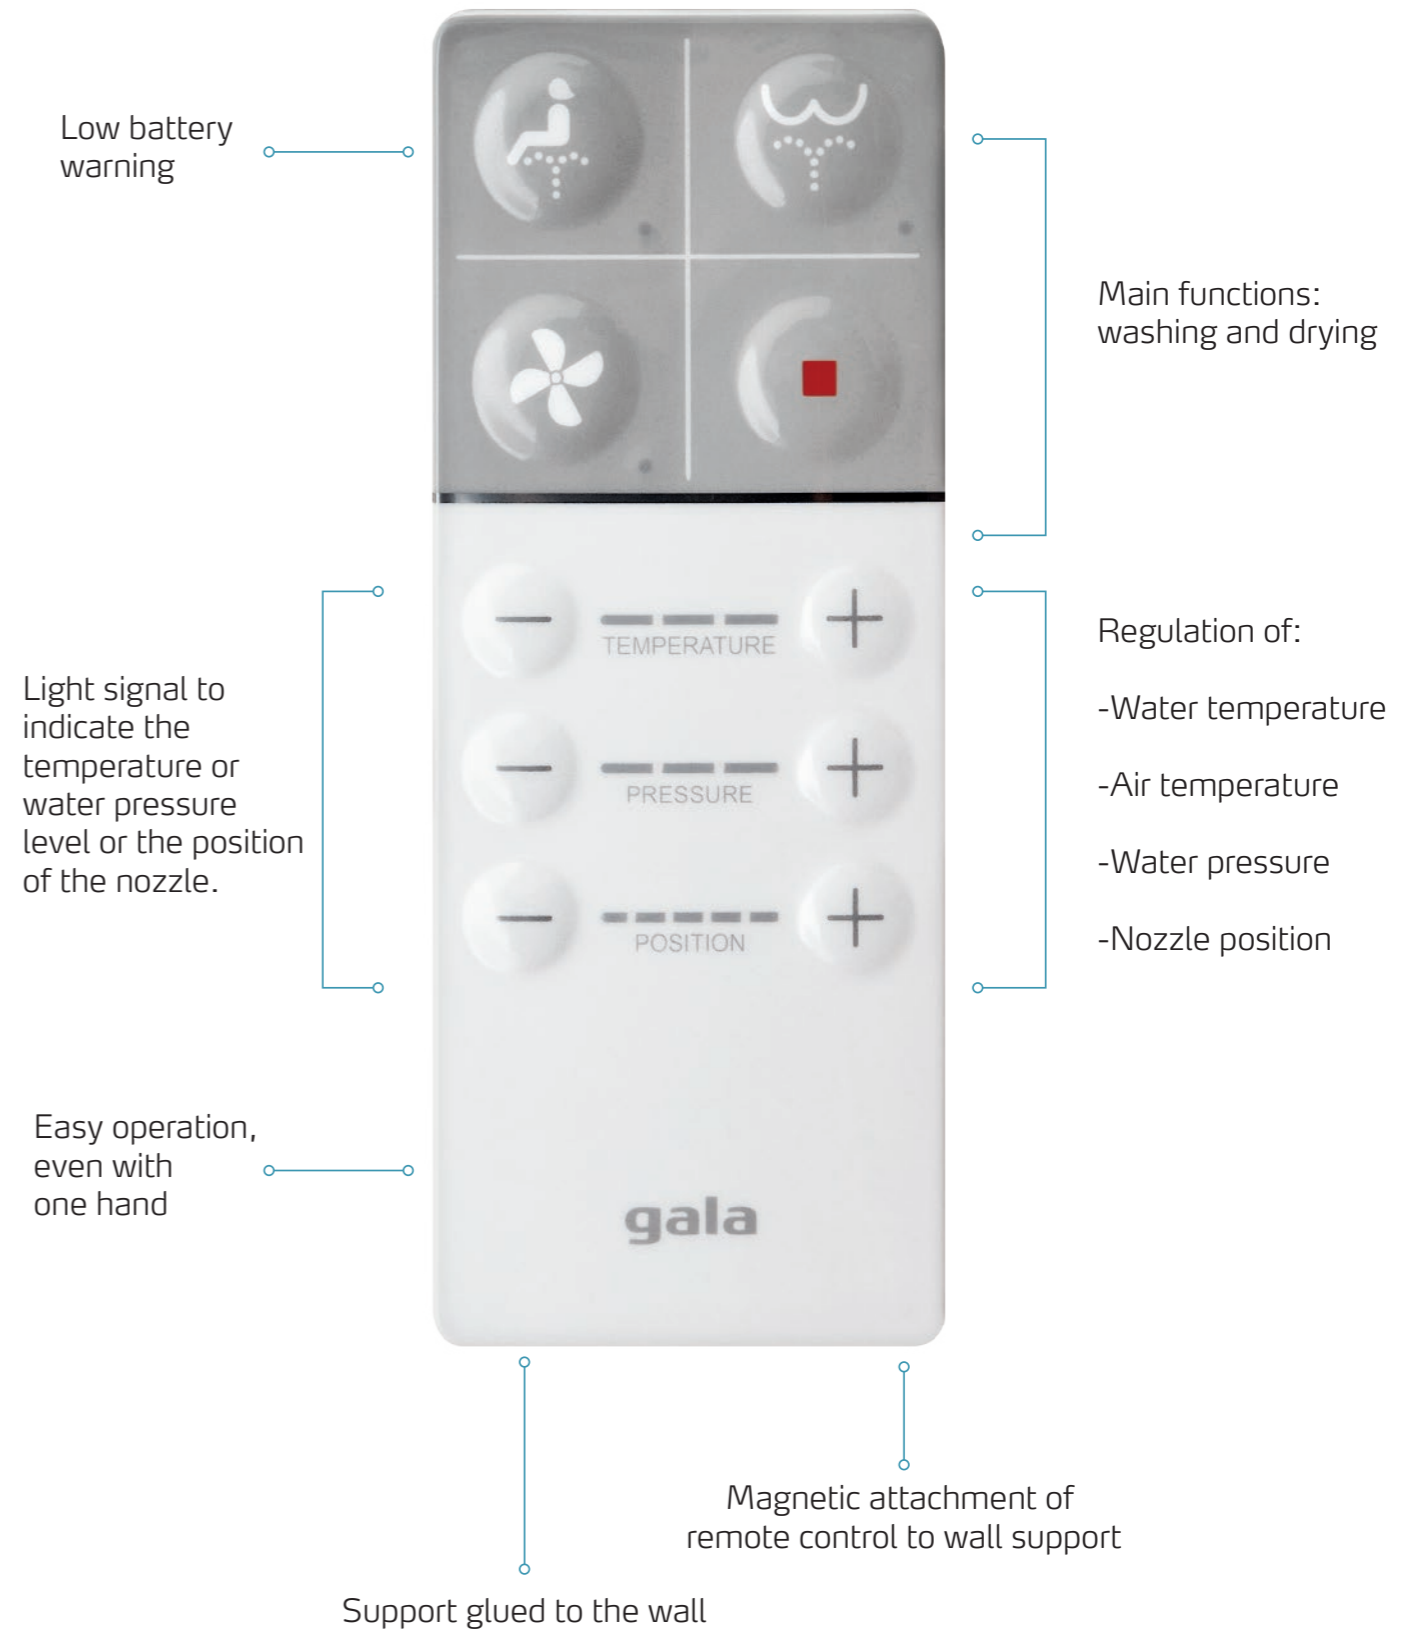

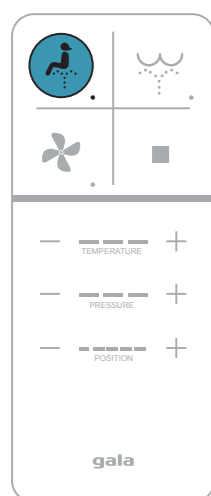

# FEATURES

# More features

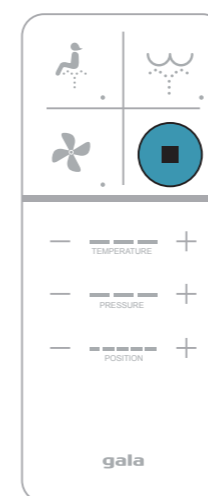

An extraordinary WC with an outstanding performance. Gala Innova moves forward in innovation and development to offer the most comprehensive functionality.

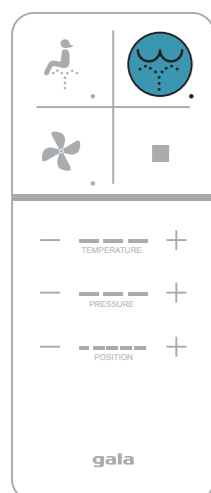

### Front wash

The nozzle is activated in the front position.  
Adjustable settings:  
- Water temperature  
- Water pressure  
- Nozzle position  
- Oscillating movement of nozzle

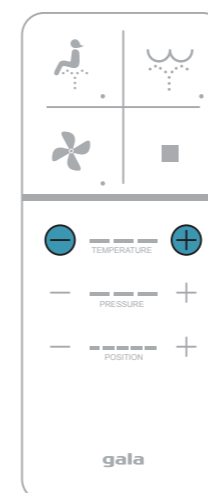

### Stop

It stops any active function.

### Rear wash

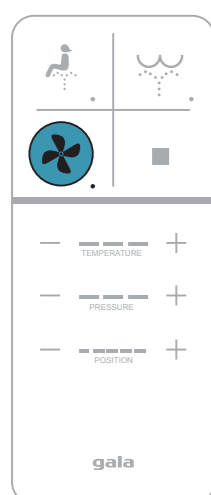

The nozzle is activated in the rear position.  
Adjustable settings:  
- Water temperature  
- Water pressure  
- Nozzle position  
- Oscillating movement of nozzle

### Water temperature

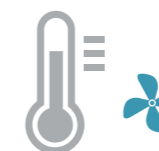

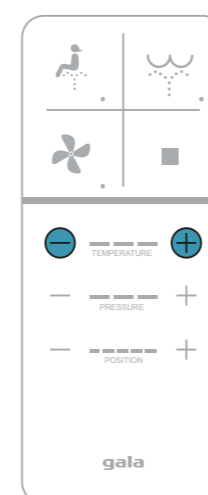

The water temperature has four adjustment levels:

- Ambient: no LEDs light up
- Low (33°): one LED lights up
- Medium (36°): two LEDs light up
- High (39°): three LEDs light up

### Drying

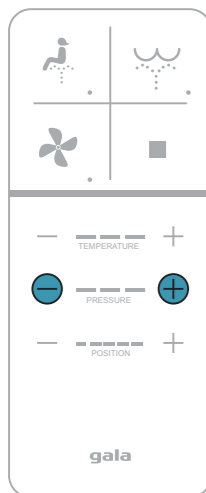

The drying function is activated.  
- Adjustable air temperature

### Air temperature

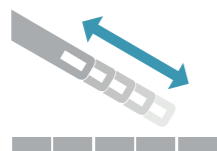

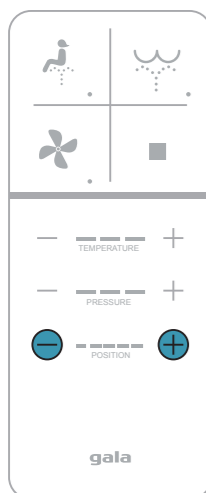

The air temperature has four adjustment levels:

- Ambient: no LEDs light up
- Low: one LED lights up
- Medium: two LEDs light up
- High: three LEDs light up

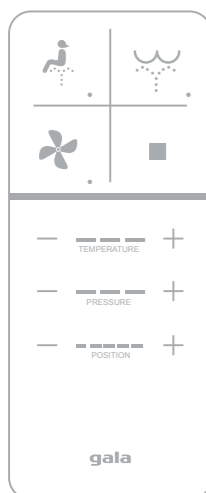

### Water pressure

The water pressure has three adjustment levels.

### Nozzle position

The nozzle has 5 different positions to meet the needs of every user. By default, it starts in the middle position, moving two positions to the front and two to the rear.

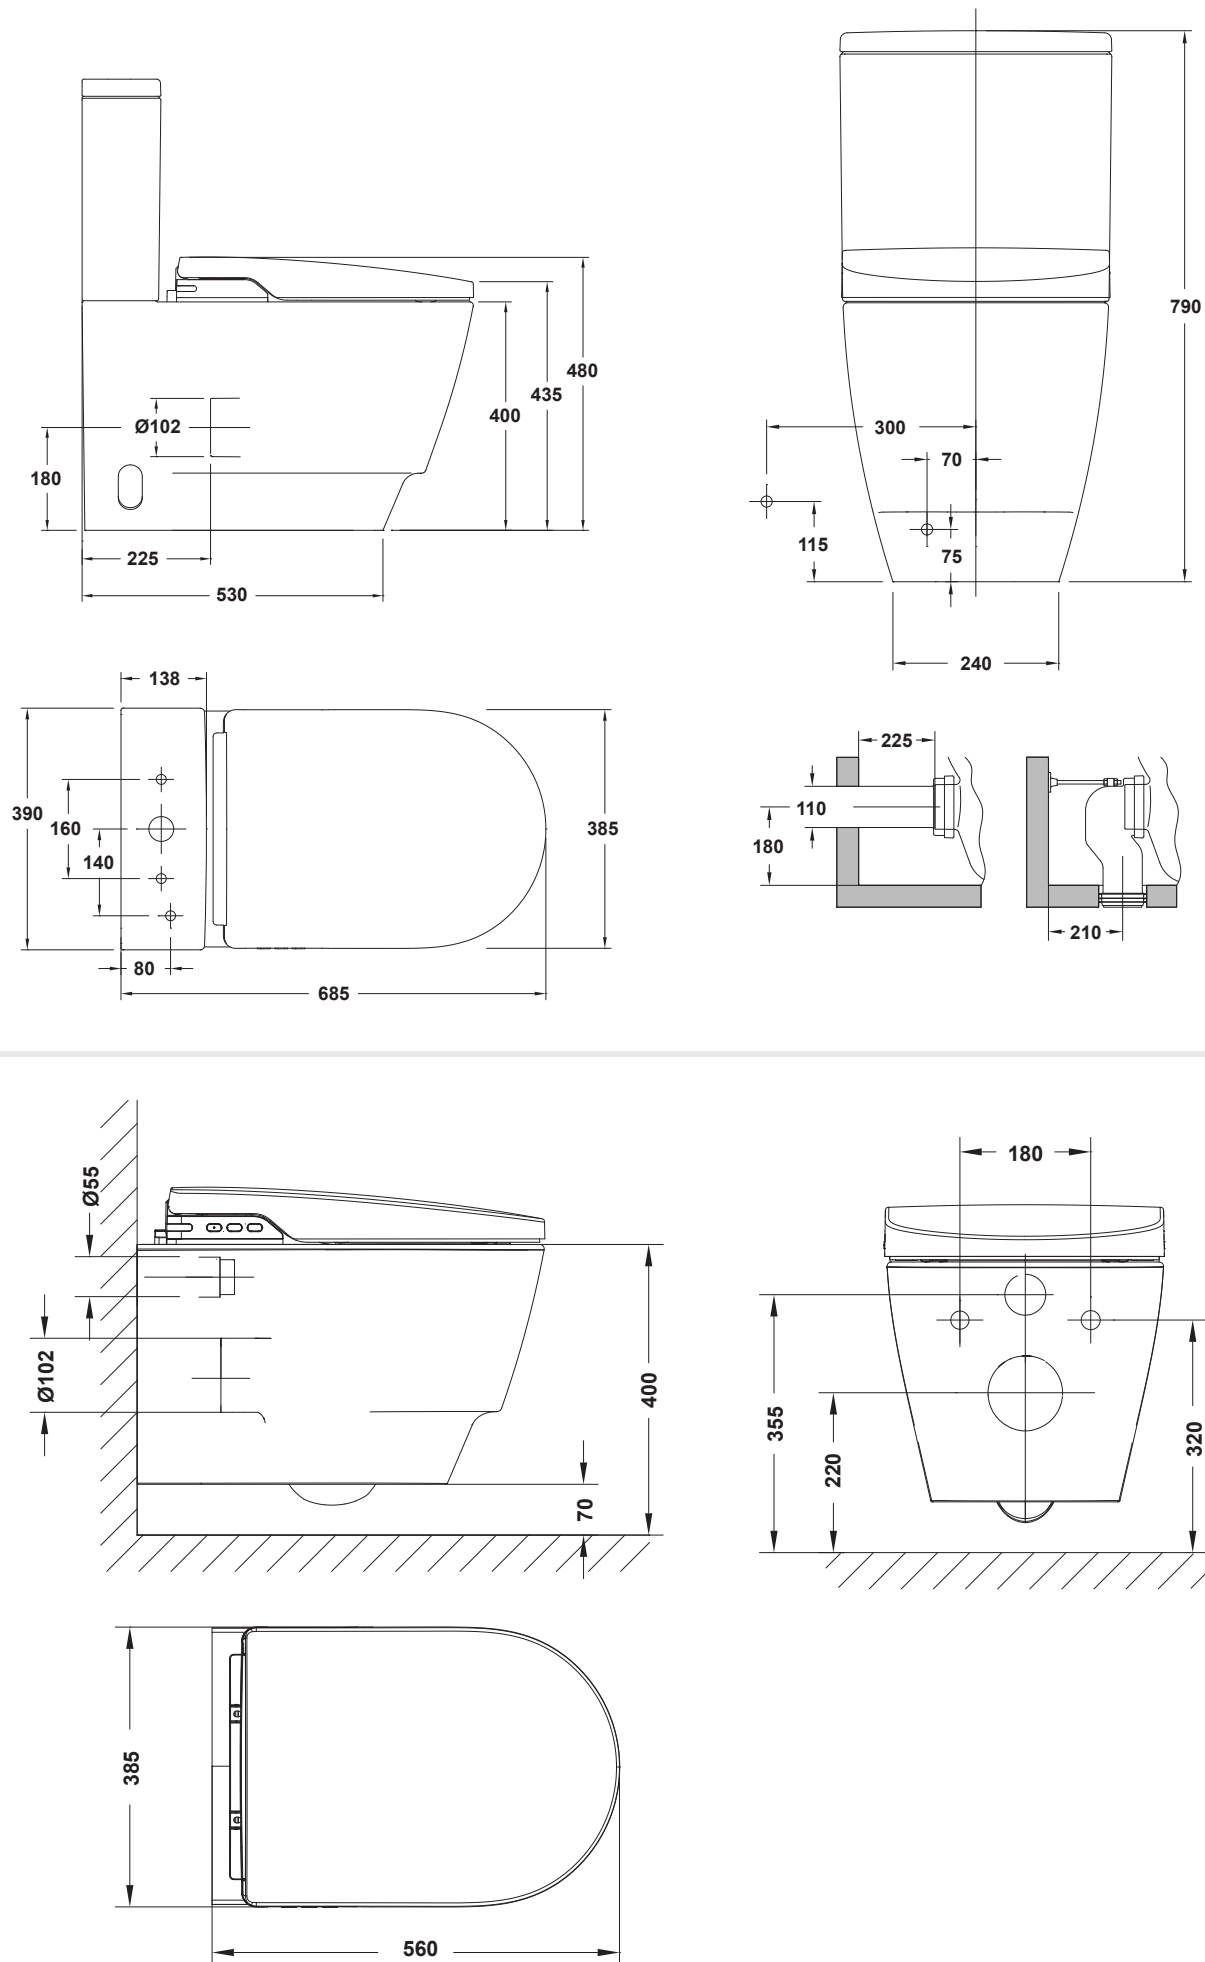

### Low battery

When the battery is low, all LED lights in the remote control blink at the same time.

## Technical specifications

## Installation

### Full Frame Gala Innova

Installation system for wall-hung WC in dry walls

Compact cistern and dual push-button mechanism 6/3, 4,5/3 and 4/2 liters.

Minimum depth horizontal outlet: 80 mm.

Minimum depth vertical outlet: 107/125 mm (DN90 / DN100).

Conversion bend  $\varnothing 90$  or 110 mm.

Only compatible with Eon push-buttons.

Installation system for self-supporting wall-hung WC.

Flexible inlet hose and corrugated pipe for Shower toilets included.

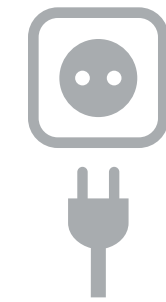

Installation system for floorstanding WC in dry and wet walls.

Minimum depth: 80 mm.

### One single water inlet

Gala Innova only requires one water inlet for its installation. The system itself separates and distributes water towards the cistern or towards the nozzle.

### Compatible with the mains

The WC does not require a special electric installation, it is compatible with the conventional power supply.

**Certificates**  
CE/ RoHS  
WRAS  
KTW (W270)

### Easy installation of the remote control

The support for the remote control can be easily installed using screws or adhesive.

### Safety regulations

Norms for vitreous china: UNE 67001, EN 997

Safety for domestic use: IEC 60335-1, IEC 60335-2, IEC 60695-10-2

Electromagnetic compatibility: IEC 61000-6-2, IEC 61000-6-4

Protection against drinking water contamination: EN 1717, EN 13077
